August 26, 2025

Stephen J. Krajcsik  
Solid Waste Operations Administrator  
Anne Arundel County Department of Public Works  
389 Burns Crossing Road  
Severn, Maryland 21144

Dear Stephen J. Krajcsik:

On July 29, 2025, the Maryland Department of the Environment, Solid Waste Program (MDE/SWP) received a revised Phase II Geologic and Hydrologic Report (Phase II Report) for the proposed Millersville Municipal Landfill and Resource Recovery Facility's Vertical Expansion. The facility is located at 389 Burns Crossing Road, Severn, Anne Arundel County, Maryland. The revised Phase II Report was prepared and submitted on your behalf by Geosyntec Consultants.

The information submitted for the Phase II Report satisfies the minimum requirements under the Code of Maryland Regulations 26.04.07.07. The Phase II Report for the proposed Millersville Municipal Landfill and Resource Recovery Facility's Vertical Expansion is now considered complete and hereby approved. You may proceed with the preparation and submission of 5 hard copies and a complete electronic copy of the Phase III Engineering Plans and Specifications Report (Phase III Report). The engineering plans accompanying the Phase III Report must be neatly folded and inserted in plastic covers so that the title of each plan can be read in place, all combined and placed in a ring binder fitting size 8.5 inch by 11-inch paper.

Please refer to the document control number **2023-WMF-0240A** when writing MDE/SWP regarding this application. If you have any questions concerning this matter, please contact Abigail Brodsky Project Manager at (410) 537-3315 or [abigail.brodsky@maryland.gov](mailto:abigail.brodsky@maryland.gov).

Sincerely,

Andrew Grenzer, Chief  
Solid Waste Operations Division
